

R Workshop Day 2

RStudio projects and RMarkdown

- RStudio projects¹
- Creating an RMarkdown document²
- Markdown syntax³
- Knitting⁴
- Rchunks⁵
- Simple analysis of data from web (driving)
- Multivariate graphs
- gentle intro to tidyverse (using driving data)
- graph customizations (warmup ggplot2)

???

Practice

1. Create a simple RMarkdown report that includes some data and graphics from one of the datasets we have used so far.
