Master list of R and RStudio "moRsels"

- Introduction
  - What are R and RStudio.[1]
  - Why use R and RStudio instead of something else?[2]
  - Starting RStudio[3]
  - The different RStudio panes[4]
  - Using the console, including help and history[5]
  - Getting ready to work[6]
  - Recovering from errors
  - Starting a fresh session
  - Ending a session
- Packages
  - Packages as toolboxes
  - The hanoverbase package
- Projects
  - What is a project
  - Starting a new project
  - Opening an existing project
- R Basics
  - Basic arithmetic and scientific notation[7]
  - Assigning to variables[8]
  - Working with vectors/sequences[9]
  - Basic functions
  - Quick creation of data using scan and copy-paste[10]
  - Loading built-in data sets
- R-Markdown
  - What are R-Markdown documents
  - The differences between the console and an rmarkdown document
  - Opening an existing R-Markdown document
  - Compiling (Knitting) an R-Markdown document
  - Knitting vs running a chunk vs running something in the console
  - Setting title/author/date information
  - Section and subsection headings
  - Highlighting text (italics/bold/typewriter)
  - Adding quoted text
